

DRAFT ONLY - FJI PERUSAL ETC.

AS OF APRIL 2017 TO FEBRUARY 2019 I UNDERWENT MULTIPLE THORACIC PROCEDURES INCLUDING A TOTAL REMOVAL OF MY LEFT LUNG & RIB CAGE STRUCTURE.

REHABILITATION AFTER THESE PROCEDURES HAS BEEN ONGOING & DUE TO THE REQUIREMENT OF A SAFE SEPTIC DISCHARGE CHANNEL THE WOUND HAD TO BE DRESSED DAILY TO AVOID FURTHER INFECTION.

THE ORIGINAL WOUND EXTENDED FROM DIRECTLY UNDER MY ARM TO ALMOST MY WAIST, AS THIS WOUND ^{REQUIRED} SERIOUS DAILY CARE & A COMMUTE OF PRETORIA/JOHANNESBURG/PRETORIA, ~~HEI WERE~~ WAS ADVISED BY MY THORACIC SURGEON TO CONTACT SR. RENÉ LESSING OF HAUTE CARE AT UNITAS HOSPITAL (PRETORIA) FOR HER ASSISTANCE

THIS DECISION HAS PROVEN INVALUABLE & ABSOLUTELY ~~KNOWLEDGEABLE~~ APPROPRIATE IN DEALING WITH THIS COMPLICATED WOUND. AS WELL AS THE WOUND CARE REGIME THERE HAS ALWAYS BEEN EXTRA ORDINARY EMOTIONAL SUPPORT. THIS COUPLED WITH SR. RENÉ LESSING'S PROFESSIONAL DILIGENCE HAS PROVEN SUCCESSFUL IN ^{HEALING OF THE WOUND} THE WOUND, THE CHANNEL IS BEING KEPT OPEN TO DRAIN ^{THE} EVER PRESENT ~~CEPT~~ SEPTIC ^{TREATMENT} THIS HAS RESULTED IN ^{THE} ~~A~~ DRAMATIC DECREASE OF VISITS TO

THE CLINIC FROM 7 TIMES A WEEK TO 3
TIMES PER WEEK.

THIS IS AN ONGOING PROCESS, BUT
HAVING HAUTE CARE DEAL WITH IT
HAS BEEN AN OUTSTANDING SUCCESS, FOR
WHICH I AM SINCERELY INDEBTED.
